

WOVEN BLINDS

Woven blinds manufactured from natural wood or bamboo slats in the weft and strong string in the warp add a touch of warmth to any room. Different weaves are available depending on the look you require, from loosely woven and transparent to more tightly woven to restrict light and increase privacy.

These are eco-friendly, easy to use blinds, rolling up from the bottom to the desired level. There are a number of slat widths and colours with cords, tapes and top and bottom rails colour co-ordinated according to your choice of design.

Taylor Blinds and Shutters has been manufacturing blinds for over 50 years. It is a member of Trellidor Group, which will continue the Taylor family tradition of supplying innovative, top quality products backed by superb service and warranties.
