

# WOODEN VENETIAN BLINDS

Wooden Venetian blinds are a classic window treatment that compliment a wide variety of décor styles, from traditional to modern and functional. These blinds can be fitted to any type of window or door. They allow you to control the amount of light and privacy entering a room by tilting the slats, closing them completely or raising the blind.

Taylor Venetian Blinds are made from sustainable Basswood sourced from renewable plantations in the Far East. The wood is UV treated and undergoes a kilning process to stabilise its properties. Basswood has been used in the manufacturing of wooden blinds for over 100 years and has the characteristics of a natural wood product.

Taylor Blinds and Shutters has been manufacturing blinds for over 50 years. It is a member of Trellidor Group, which will continue the Taylor family tradition of supplying innovative, top quality products backed by superb service and warranties.
