

TRELLIDOR PREMIUM RETRACTABLE (T700)

The Trellidor Premium Retractable Security range of fully framed, galvanised steel sliding barriers is custom-made for doors, patios, passages, windows, stairways and retail outlet counters. Models differ in terms of strengthening features. The robust double trellis design helps protect homes and commercial buildings from a break-in. These gates are neat, compact and operate smoothly. All models are fitted with a patented Trellidor locking system that locks in multiple places using just one key in a single lock.

All Trellidor security barriers are manufactured at our LPCB ISO audited factory. The manufacturing process includes pre-treatment for enhanced corrosion and UV resistance before undergoing powder coating. This helps to retain the quality finish and increases the lifespan of the barrier, making them suitable for both coastal and inland conditions.

FEATURES AND BENEFITS

- Steel top track with optional cover
- Purpose designed mild steel rivets
- Upright nylon wheel holder assembly with aluminium shaft
- Upright assembly with roll-formed steel uprights
- Multiple locking points in all door height ranges with one key point
- Lock cover
- Upright steel sill guide with zinc plated spacer tube and steel rivets
- Link closures are joined together with steel spacer tubes and recess bushes
- Links cross over and connect three upright bars
