

TRADITIONAL TRELLIDOR COMMERCIAL RETRACTABLE GRILLES

Lock Out The Worry.

Unmatched, custom-made protection you can trust.

Custom-made security solutions that protect people and property.

TRADITIONAL TRELLIDOR COMMERCIAL RETRACTABLE GRILLES

A range of highly specialised and internationally certified sliding security gates designed to control access in high security risk areas. These products are certified by the UK-based Loss Prevention Certification Board (LPCB), which tests and certifies products, services, and systems in the international market. Trellidor is the only South African sliding security manufacturer to achieve international ratings.

TROJAN CLASSIC S1

LPCB LPS1175 SR1

These robust gates are a step up in strength but similar in looks to the more familiar Trellidor sliding security gates. This model has additional internal strengthening features and a deadlock with multiple internal locking points.

Why choose Trojan Classic S1

- 1 Certified Strength**
Internationally certified to LPCB LPS 1175 SR1 by BRE, delivering proven, high-level resistance against attack.
- 2 Robust Design**
Strong, resilient design with built-in strengthening features for high crime risk installations.
- 3 Easy Use**
Fully framed galvanised steel sliding barrier that glides effortlessly to open or close.

TROJAN S2

LPCB LPS1175 SR2

Extremely strong gates with the structure to resist attack far longer than other similar designs. It is manufactured with mild steel and stainless-steel components that are bigger and stronger, yet the gate remains easy to slide open and closed.

Why choose Trojan S2

- 1 Certified Strength**
Internationally certified to LPCB LPS 1175 SR2 by BRE, delivering proven, high-level resistance against attack.
- 2 Robust Design**
Built-in strength makes this barrier strong enough to withstand a serious criminal attack.
- 3 Unique Locking System**
A tamper proof, keyless emergency escape function is available as an optional extra.

TROJAN S2 PRO

LPCB LPS1175 SR2

Extremely strong gates with the structure to resist attack far longer than other similar designs. It is manufactured with mild steel and stainless-steel components that are bigger and stronger, yet the gate remains easy to slide open and closed.

Why choose Trojan S2 Pro

1 Certified Strength

Internationally certified to LPCB LPS 1175 SR2 by BRE, delivering proven, high-level resistance against attack.

2 2 to 4 Point Deadlock Locking System

Provides multiple locking systems across the height of the door to withstand an attack at any point of the locking system.

3 90° to 135° Application

Two units can be locked and unlocked to each other at an angle while maintaining certified protection.

TROJAN S3

LPCB LPS1175 SR3

One of the strongest sliding trellis-style steel gates in the world. This exceptional retractable grille is engineered to international safety standards and crowd control requirements. A unique locking system has a tamper proof, keyless emergency escape function.

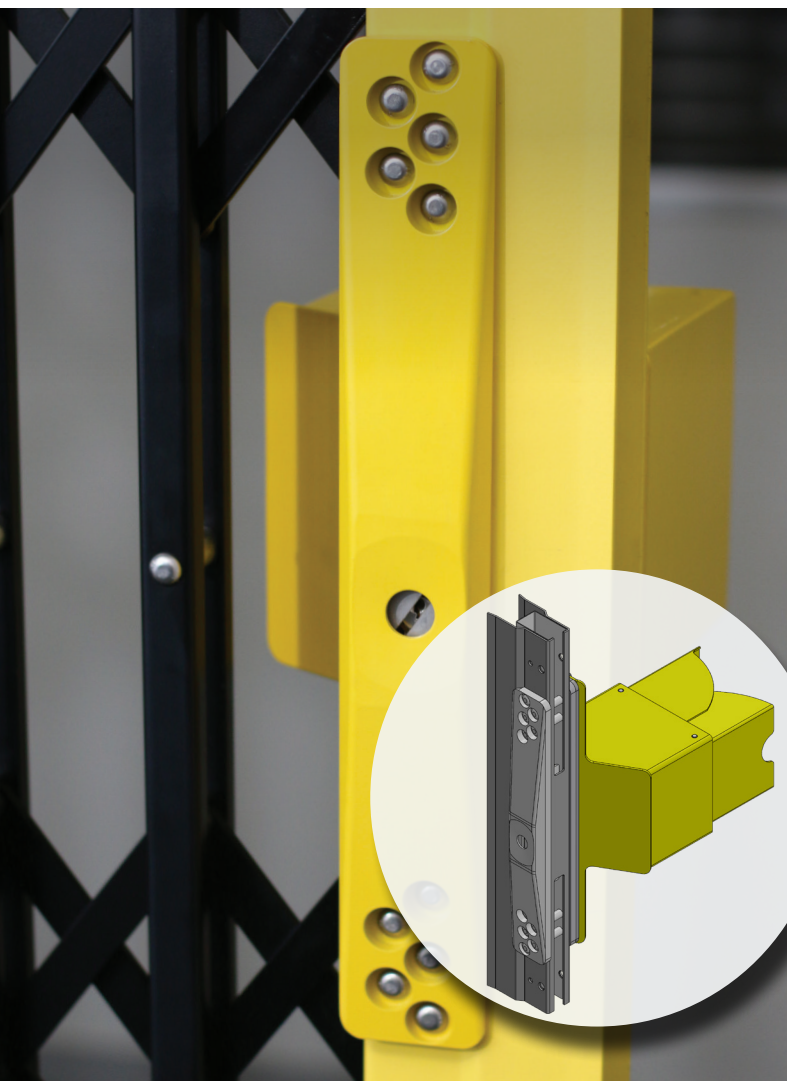

Why choose Trojan S3

1 Certified Strength

Internationally certified to LPCB LPS 1175 SR3 by BRE, delivering proven, high-level resistance against attack.

2 Easy Use

The Trojan S3 features impressively thick uprights and high-quality steel that contribute to its strength and durability. With a multi-sash and dual channel technology, it offers an unlimited width, providing versatility for larger spaces without compromising security. Despite weighing 50kg/m² due to the reinforced structure, its unique construction ensures smooth and easy operation, making it a practical yet heavy-duty option for enhanced protection.

STANDARD FEATURES THAT SET TRELLIDOR TRADITIONAL SECURITY APART

Independent third-party certification distinguishes the performance of products and services from competitors.

All steel components are roll-formed, hot dipped galvanised and powder-coated with UV resistant treatment.

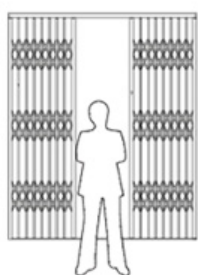

Custom-made double vertical u-shaped upright bars for added strength and corrosion resistance.

T-shaped bottom track for a fully framed solution with enhanced strength and easy maintenance.

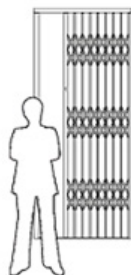

Single lock engages multiple locking points.

Top hung wheels and links across three uprights for smooth operation.

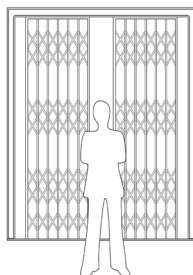

AVAILABLE CONFIGURATIONS

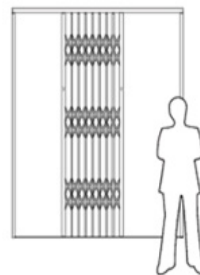

**DOUBLE
RETRACTABLE**

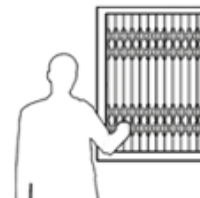

**SINGLE
RETRACTABLE**

**DOUBLE FLEXI
RETRACTABLE**

**SINGLE FLEXI
RETRACTABLE**

**FIXED AND
RETRACTABLE**

*Trojan S2 Pro & S3 only: Side by side configuration. Angled locking (eliminating the need for a fixed mullion).

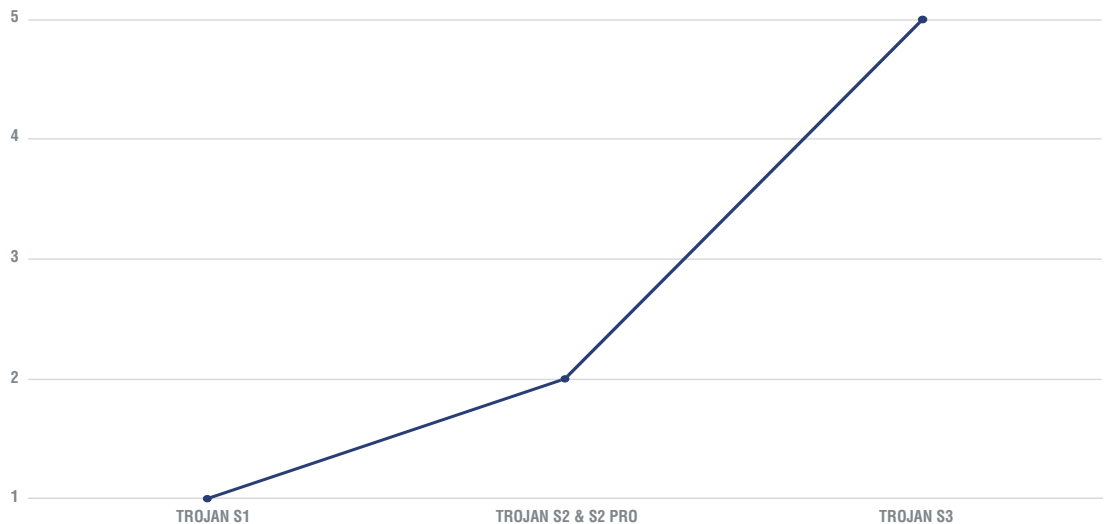

**These configurations are examples used for illustrative purposes only. The final design of each product will be dictated by site limitations, customer specifications, and location restrictions.

| | MIN (W) | MAX (W) | MIN (H) | MAX (H) |
|-------------------------------------|---------|---------|---------|---------|
| DOUBLE RETRACTABLE | 680 | 12 000 | 555 | 3600 |

WHY TRELLIDOR?

A BRAND YOU CAN TRUST

We were established in 1976 and have secured millions of doors, windows and other openings since our journey began.

CLOSE TO OUR CUSTOMERS

We have a large network of outlets so that we can provide customised products and expert personalised service with local knowledge.

INNOVATIVE PRODUCT RANGE

We're constantly updating our range to reflect current trends but continue to supply our old favourites that are trusted around the world.

PEACE OF MIND PROTECTION

We invest in international third-party testing and certification of our high-end designs to ensure that our entire range provides the best protection on offer.

DEPENDABLE PRODUCT WARRANTIES

Our warranties are not a sales gimmick. Not only are they internationally verified, they are realistic, reliable, responsible and reflect our confidence in our products.

LONG LASTING INVESTMENT

Our world-class anti-corrosion pretreatment and powder coating process creates a smooth, high-quality finish for a durable product with a long lifespan.

COLOURS

All Trellidor products come in 8 standard colours. Special colours are available on request, allowing you to choose a colour to best suit your decor or your corporate colours.

The Trellidor powder coating system includes a pre-treatment process that enhances our products' corrosion and UV resistance. The powder coating is ideal for coastal and inland conditions and increases the lifespan of the barrier by retaining its quality finish.

*Actual colours may vary slightly due to device settings, differences in printing substrates, or personal perceptions of colour.
